The Stapp Car Crash Conference® is the premier forum for presentation of research in impact biomechanics, human injury tolerance, and related fields that advance the knowledge of land-vehicle crash injury protection. The conference provides an opportunity to participate in free discussion regarding the causes and mechanisms of injury, experimental methods and tools for use in impact biomechanics research, and the development of new concepts for reducing injuries and fatalities in automobile crashes.

This year's Stapp Conference will be held on November 9-11 at the Hyatt Regency Washington on Capitol Hill in Washington, D.C. Technical presentation topics will include restraint system performance, advanced dummy design, head and brain injury, spinal injury, thoracic and abdominal injury, upper and lower limb injury, and modeling techniques.

This brochure provides information about the conference so that you may begin to make plans and reservations. The Hyatt Regency Washington on Capitol Hill is 10 minutes by car from Washington's Ronald Reagan National Airport and 45 minutes from Washington-Dulles and Baltimore-Washington International airports. Please use the form provided in this brochure to make your hotel reservations.

The 33rd NHTSA-sponsored International Workshop on Human Subjects for Biomechanical Research will be held on Tuesday, November 8, preceding the Stapp Conference. Additional information for the workshop can be obtained by contacting the NHTSA workshop chair.

On behalf of the Stapp Advisory Committee, we welcome all prospective Stapp Conference participants and attendees, and thank those of you who have attended previous Stapp Conferences for your interest and valued contributions.
