FINAL PROGRAM

The final program for the 2008 Stapp Conference® will be available in September. Final programs will be mailed to all those who have pre-registered as well as 2006 and 2007 Stapp Conference attendees.

The Stapp Car Crash Conference® is the premier forum for presentation of research in impact biomechanics, human injury tolerance, and related fields that advance the knowledge of land-vehicle crash injury protection. The conference provides an opportunity to participate in free discussion regarding the causes and mechanisms of injury, experimental methods and tools for use in impact biomechanics research, and the development of new concepts for reducing injuries and fatalities in automobile crashes.

This year's Stapp Conference will be held on November 3-5 at the Hyatt Regency on the Riverwalk in San Antonio, Texas. Technical presentation topics will include restraint system performance, advanced dummy design, head and brain injury, spinal injury, thoracic and abdominal injury, upper and lower limb injury, and modeling techniques.

This brochure provides information about the conference so that you may begin to make plans and reservations. The Hyatt Regency on the Riverwalk is located 9 miles from the San Antonio International Airport. Please use the information provided in this brochure to make your hotel reservations.

The 36TH NHTSA-sponsored International Workshop on Human Subjects for Biomechanical Research will be held on Sunday, November 2, preceding the Stapp Conference. Registration for the workshop is included in the Stapp Conference Registration form. No registration fee is required. Additional information for the workshop can be obtained by contacting the NHTSA Workshop Chair.

On behalf of the Stapp Advisory Committee, we welcome all prospective Stapp Conference participants and attendees, and thank those of you who have attended previous Stapp Conferences for your interest and valued contributions.
