The conference provides an opportunity to participate in free discussion regarding the causes and mechanisms of injury, experimental methods and tools for use in impact biomechanics research, and the development of new concepts for reducing injuries and fatalities in automobile crashes.

This year's Stapp Conference will be held on November 2-4 at the Hyatt Regency in the historic district of Savannah, Georgia. Technical presentation topics will include restraint system performance, advanced dummy design, head and brain injury, spinal injury, thoracic and abdominal injury, upper and lower limb injury, and modeling techniques.
